

Teaching plan for the semester form 2025-2026

Course Instructor	Hanaa Ali Aziz				
E_mail	hanabio-1983@mu.edu.iq				
Title	Animal Physiology				
Course Coordinator	15 weeks , 2 hours theoretical				
Course Objective	learning the students of advance physiological actions in the all body organs in the deferent systems. Also, asses the students for able to determine the normal and abnormal physiological action in the body.				
Course Description	Define the physiological science in the deferent systems . Diagnosis the main character of specific signs of cells Determined the relationship between the internal and external environment				
Textbook	Medical physiology , Gunstream's Anatomy & Physiology				
References	Biology journals, medical journal				
Course Assessment	Term Tests	Laboratory	Quizzes	Project	Final Exam
	25%			5%	70%
General Notes	Type here general notes regarding the course				

Teaching plan for the semester form

week	Date	Topics Covered	Lab. Experiment Assignments	Notes
1		Introduction of physiology		
2		Endocrinology part 1		
3		Endocrinology part 2		
4		Cardiovascular system		
5		Nervous system		
6		Urinary system		
7		Blood cells		
8		Respiratory system		
9		Integumentary System		
10		Male reproductive sys.		
11		Female reproductive sys.		
12		Digestive system		
13		Muscular system		
14		Skeletal System		
15		Exam
