Academic Program and Course Description Guide

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

<u>Course Description</u>: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

<u>Program Vision:</u> An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

<u>Program Mission:</u> Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

<u>Program Objectives:</u> They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

<u>Curriculum Structure:</u> All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

<u>Teaching and learning strategies</u>: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extracurricular activities to achieve the learning outcomes of the program.

Program vision is written here as stated in the university's catalogue and website.

2. Program Mission

Program mission is written here as stated in the university's catalogue and website.

3. Program Objectives

General statements describing what the program or institution intends to achieve.

4. Program Accreditation

Does the program have program accreditation? And from which agency?

5. Other external influences

Is there a sponsor for the program?

6. Program Structure

Program Structure	Number of Courses	Credit hours	Percentage	Reviews*
Institution				
Requirements				
College Requirements				
Department				
Requirements				
Summer Training				
Other				

* This can include notes whether the course is basic or optional.

7. Program Description									
Year/Level Course Code Course Name Credit Hours									
		theoretical	practical						

8. Expected learning outcomes of the program							
Knowledge							
Learning Outcomes 1 Learning Outcomes Statement 1							
Skills							
Learning Outcomes 2	Learning Outcomes Statement 2						
Learning Outcomes 3 Learning Outcomes Statement 3							
Ethics							
Learning Outcomes 4 Learning Outcomes Statement 4							
Learning Outcomes 5	Learning Outcomes Statement 5						

9. Teaching and Learning Strategies

Teaching and learning strategies and methods adopted in the implementation of the program in general.

10. Evaluation methods

Implemented at all stages of the program in general.

11. Faculty			
Faculty Members			
Academic Rank	Specialization	Special Requirements/Skills (if applicable)	Number of the teaching staff

General	Special		Lecturer	

Professional Development

Mentoring new faculty members

Briefly describes the process used to mentor new, visiting, full-time, and part-time faculty at the institution and department level.

Professional development of faculty members

Briefly describe the academic and professional development plan and arrangements for faculty such as teaching and learning strategies, assessment of learning outcomes, professional development, etc.

12. Acceptance Criterion

(Setting regulations related to enrollment in the college or institute, whether central admission or others)

13. The most important sources of information about the program

State briefly the sources of information about the program.

14. Program Development Plan

	Program Skills Outline

• Please tick the boxes corresponding to the individual program learning outcomes under evaluation.

Course Description Form

1. Course Name:

Molecular biology

2. Course Code:

3. Semester / Year:

1/4

4. Description Preparation Date:

21.09.2024

5. Available Attendance Forms:

21.09.2024

6. Number of Credit Hours (Total) / Number of Units (Total)

2

7. Course administrator's name (mention all, if more than one name)

Name: Professor Dr. Laith AbdulHassan M.Jawad

Email: atabdlih@mu.edu.iq

8. Course Objectives

Course Objectives

1. Knowledge of the theoretical and basic concepts principles of molecular biology and sciences related biotechnology. 2. Explain the relationship interactions between molecular biology, biotechnol and the environment. 3. Employ the theoret foundations of molecular biology and biotechnol and their applications in industry and the environm 4. Build an academic scientific base for gradu students in the fields of molecular biology biotechnology and their applications in econo development • Apply the theories and concepts molecular biology to explain the basic processes of from the cell to the organism. • Develop knowledge a experience in working with contemporary laborat techniques related to various specializations molecular biology and biotechnology. • Acquire

ssary to work in laboratories
ompanies, factories and rela
work during the years of study

9. Teaching and Learning Strategies

Strategy

1. Lecture. 2. Discussion groups. 3. Brainstorming. 4. Mind maps. Problem solving. 6. Discovery learning. 7. Collaborative learning. Discussion strategy. 9. Project-based learning. 10. E-learning.

10. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc

Monthly exam 15 marks

Daily exam and attendance with discussion 5 marks

11. Learning and Teaching Resources Required textbooks (curricular books, if any) Main references (sources) Recommended books and references (scientific journals, reports...) Electronic References, Websites
