EDUCATION:

Degree Earned, Ph.D., Al-Qadisiya University, Iraq, 09/2019 to 11/2023.

Example:

Effect of Graphene-Gold Nanocomposite Based Cyclophosphamide on عنوان الأطروحة ➤
Breast Cancer Cell Line

WORK HISTORY:

Lecturer, College of Science, University of Al-Muthanna – Iraq- Samawa .

Duties and accomplishments

Research title:

Spectrophotometric determination of Micro amount of Cobalt (II) by Using (Antipyriyl azo 1-Nitroso-2-naphthol) as New reagent in raw Milk

Preparation and Characterization Studies of Manganese (II) Complex with azo reagent (Antipyriyl azo 1-Nitroso-2-naphthol) by Spectrophotometric Methods

Antipyryl Azo(2,7)-Naphthalindiol as Spectrophotometric Reagent for Micro-determination of Cobalt (II)

Adsorption behavior of methylene blue on acid-treated rubber (*Hevea brasiliensis*) leaf

Spectrophotometric Determination of The Complexation of Heavy Metal Ion with Organic Reagent

Synthesis and Characterization of C/ZnO Nanocomposite: Adsorption Isotherm of a Reactive Green from Aqueous Solutions.

Recent advances in the synthesis of zirconium complexes and their catalytic applications

Preparation and Identification of Metal Ions Complexes for 4-(P-Phenyl azo sulfonic acid)-1-Naphthol Dye
